## Draft Class 3 Hazardous Waste Permit Modification Lone Star Industries, Greencastle, Indiana

The Indiana Department of Environmental Management (IDEM) has prepared this fact sheet to inform the public of the process involved in issuing a Hazardous Waste Management Permit Modification to Lone Star Industries.

The Solid Waste Disposal Act, commonly known as the Resource Conservation and Recovery Act (RCRA) was passed in 1976. This allowed for the regulation of the management of hazardous waste. In the State of Indiana, the IDEM is authorized by the Indiana Environmental Statutes, IC 13-22, to administer the hazardous waste permit program and related hazardous waste management requirements. Any facility which treats, stores, and/or disposes of hazardous waste in the State of Indiana is required to obtain a final hazardous waste management permit. In addition, any hazardous waste facility receiving a permit is required to provide corrective action for all releases of hazardous waste or of hazardous waste constituents from any solid waste management unit on-site.

### Facility Description

Lone Star operates a Portland cement facility at 3301 S CR 150 W, Greencastle, Indiana. Lone Star stores hazardous waste in tanks and containers prior to blending them to make waste-derived fuel that can be utilized in the manufacturing of Portland cement.

### Modifications to the State Permit

The permit modification will allow construction and operation of two (2) additional 150,000 hazardous waste storage tanks.
